

Jacklyn Miller

Houston, TX · jacklyn747@gmail.com · jackiemiller.co · linkedin.com/in/jacklyn747

Instructional designer for underserved and justice-involved adult learners, with a creative-writing foundation and hands-on AI expertise. MS in Instructional Design & Technology. I design trauma-informed, accessible, constraint-first learning for environments like tablet-based correctional education — and I *build* it, using AI to move from needs analysis to working prototype. Recent experience training large language models at Character.AI and building AI-augmented instructional-design systems as an independent practitioner.

EXPERIENCE

Character.AI — Creative Writing Subject Matter Expert Nov 2024 – Apr 2025

- Trained proprietary LLMs by writing and evaluating 1,000+ dialogue examples to improve persona consistency and conversational quality.
- Designed 50+ AI agent personas with distinct behavioral frameworks, fallback, and escalation logic; documented them for engineers.
- Turned model transcripts and user feedback into improvement reports feeding fine-tuning cycles; partnered with ML and product teams.

Curiosity Inc. — Instructional Design & AI Consulting (Independent) Jan 2023 – Present

Houston, TX

- Independent freelance practice designing learning experiences and AI-augmented content systems.
- Built a RAG-powered instructional-design assistant (LangChain, ChromaDB, OpenAI embeddings) with document ingestion, retrieval with conversational memory, and source attribution, deployed on Streamlit Cloud.
- Designed AI-native content workflows using prompt chaining and agentic intake, triage, and summarization.

SELECTED PROJECTS — CORRECTIONAL & REENTRY LEARNING (SELF-DIRECTED PORTFOLIO)

- **Digital Literacy Fundamentals** — designed and built a fully interactive, self-paced course teaching first-time users to operate a laptop, with a live device simulation, for learners preparing for reentry. End to end: needs analysis, storyboard, build, WCAG accessibility, and trauma-informed design. (jackiemiller.co)
- **Content Review — “Discovering Your Narrative Voice”** — audited and revised an existing course for a secure, closed-platform (no-internet, shared-device) learning environment, treating interaction and accessibility as instructional decisions.

EDUCATION

Master of Science — Instructional Design & Technology

Bachelor of Fine Arts — Creative Writing for Entertainment

SKILLS

Instructional design (ADDIE, SAM) · Trauma-informed & accessible design (WCAG) · Adult learning theory · Cognitive load · Storyboarding & scriptwriting · eLearning authoring (Articulate 360, Adobe Captivate) · Interactive & AI-assisted prototyping · LLM training & evaluation · RAG (LangChain, ChromaDB, embeddings) · Prompt engineering · Adobe Creative Cloud · Figma · Miro
